

Robert B. Sachs Bio

Mr. Robert (Bob) Sachs is co-owner and Chairman/CEO of TEAM Technologies Inc., formerly known as Team Specialty Products Corporation (TSP). TEAM is a “high tech” engineering and manufacturing company located in the Sandia Science and Technology Park in Albuquerque, NM. For the past seven years, TEAM has earned the Flying Forty award as one of New Mexico’s fastest growing “high tech” companies and is a “Strategic Supplier” to Sandia National Laboratory. The company has grown to provide special services and products to several government and commercial customers. Mr. Sachs has been successful in continuing to grow a profitable company and to provide more than 65 high paying jobs in NM. While at the helm at TEAM Mr. Sachs has nearly quadrupled company revenues while continuing to grow profits.

Mr. Sachs completed the Executive MBA program at the UNM Anderson School of Management, and earned consecutive bachelor degrees from NMSU in Business Management and Economics, and Applied Mechanical Engineering.

Mr. Sachs spent the majority of his engineering career with Hughes Aircraft Company in Tucson, AZ and Los Angeles CA. While at Hughes, Mr. Sachs worked as a design engineer and later as a systems engineer where he lead critical development teams for Sidewinder (AIM-9X), AMRAAM, TOW, Maverick and a variety of other tactical missile programs. Mr. Sachs continued his graduate studies in Systems Engineering with an emphasis on Manufacturing Analysis & Technology Strategy through NTU with course work completed at Georgia Tech U., U. of Missouri Rolla, U. of Arizona and U. of Alaska Fairbanks. Mr. Sachs has more than twenty two years of experience managing R&D and production companies and projects.

Mr. Sachs is a friend of the community by providing his company the means to support the United Way, Special Olympics, Accion New Mexico, The Albuquerque Hispano Chamber of Commerce, Sandia Science & Technology Park Advisory Council, Sandia Mentor/Protégé Program, Sandia Small Business Assistance Program, the UNM Anderson Foundation, Carrie Tingley Children’s Hospital, and along with his brother Danny, also and NMSU graduate, is on the NMSU School of Engineering Curriculum Steering Committee.
