

A New Bi-National Energy Future: Biofuels & Solar Policy Summit

IMPORTANT NOTICE!

Due to scheduling conflicts, the organizers of the Biofuels and Solar Policy Summit planned for April 30, 2009 in Las Cruces will be postponed until October 2009. We will be holding the Summit in conjunction with ISTECS's annual General Assembly, the Nano Network of New Mexico's October "Nano Convergence" meeting, and an ISTECS/MANCEF matchmaking event. The venue will be changing to the University of New Mexico in Albuquerque, October 27, 2009. Further information will be available soon.

All registration fees are fully refundable, or will be honored for the October event. We regret any inconveniences this change may have caused but look forward to seeing you at the Summit this fall.

Biofuels and Solar Policy Summit Organizing Committee.

Partnering Organizations:

Bi-National Sustainability Laboratory (BNSL)

Micro and Nanotechnology Commercialization Education Foundation (MANCEF)

Southwest Biofuels Association

Centro de Investigaciones de Materiales Avanzadas (CIMAV)

Instituto Tecnológico de Estudios Superiores de Monterrey (ITESM) Chihuahua City

New Mexico State University

State of New Mexico Governor's Office
